PROFILE

BS Artificial Intelligence student with a strong foundation in algorithms, data structures, and systems-level programming. Drawn to the logic and reasoning behind how systems work, demonstrated through independent projects in natural language processing and applied AI. Seeking to extend this foundation through the Bachelor of Information Technology, specializing in AI and Data Science.

EDUCATION

BS Artificial Intelligence — Information Technology University (ITU), Lahore <i>Starting in 3rd semester</i>	[Aug 2025 – Present]
ICS (Maths & CS) — Punjab College, Sialkot	[2023 – 2025]
Matriculation (Science) — [GCCK], Sialkot	[2020 – 2023]

PROJECTS

NL2SQL Chatbot	[Database & System]
- Built a natural-language-to-SQL tool allowing users to query databases using plain English instead of SQL syntax. - Integrated Ollama and the Qwen language model to interpret and translate user queries into structured database commands.	
Ludo — C++ (Raylib)	[OOP]
- Designed the core game logic and turn-based decision system, applying OOP principles such as inheritance and encapsulation to structure game entities. - Implemented save/load, undo/redo, full move replay, and sound integration.	
Chess Engine — C++	[OOP]
- Designed and implemented a chess engine's AI decision logic independently, alongside a custom-built graphical interface. - Integrated Stockfish separately to benchmark and compare move quality against the custom AI.	
Huge Integer — C++	[OOP & DLD]
- Built a custom data structure to perform fast arithmetic on integers far exceeding standard data type limits. - Implemented core operations (+, -, ×, ÷, %) at the digit level without relying on built-in large-number libraries.	

ACHIEVEMENTS & CERTIFICATIONS

- Speed Programming competitions [ITU]. - Completed a Robotics short course during ICS — first hands-on exposure to applied computing. [Punjab College] - Kangaroo Math Test. [GCCK] - Badminton Championship – [GCCK]	
--	--

SOCIETIES & ACTIVITIES

- Active Member, GDG (Google Developer Group) — ITU. - Member, Sports Society — ITU. - Badminton Team— [GCCK & Punjab College].	
---	--

SKILLS

Programming: C++, Python, SQL, Graphic Designing
Concepts: Data Structures & Algorithms, Database systems, Calculas
Tools: Git, Raylib, Ollama
Languages: English (IELTS [7-Band]), Urdu (Native)
